ADVANCING THE MARINE
BLUE ECONOMY THROUGH
RESPONSIBLE RESEARCH &
INNOVATION (RRI)

DISCOVER A VIBRANT COMMUNITY OF MARINE AND MARITIME

UNITED BY A SHARED
COMMITMENT TO PROPEL THE
MARINE BLUE ECONOMY
FORWARD USING THE PRINCIPLES
OF RESPONSIBLE RESEARCH AND
INNOVATION (RRI).

- Universities
- Interested Institutions
- Industries
- SMEs
- Coastal communities
- Ministries
- Policymakers
- Researchers
- Research Institutions

Why join GRRIP Community?

1

BE PART OF EUROPE'S LEADING MARINE AND MARITIME STAKEHOLDER COMMUNITY

By becoming a member of the GRRIP Community, you gain exclusive access to the premier European-wide network of professionals and experts working collaboratively to develop a responsible research and innovation ecosystem in the marine and maritime and BLUE ECONOMY sector. Join forces with like-minded individuals and influence policies while having a voice in legislation that shapes the industry.

The Blue Economy sectors encompass offshore renewable energy, hydrogen derived from marine energy, offshore aquaculture, sustainable tourism, and many more sectors, including all their related supply chains.

3

MUTUAL LEARNING ON RESPONSIBLE RESEARCH AND INNOVATION BEST PRACTICES (RRI)

Gain access to a wealth of knowledge-sharing activities and events related to responsible practices. Benefit from invaluable resources such as Open research data and Open Science, FAIR data practices, training materials, and toolkits in responsible innovation, and an extensive knowledge base, all designed to foster your understanding and application of RRI best practices.

2

NETWORKING AND CONSORTIUM BUILDING FOR FUTURE RESEARCH AND INNOVATION PROJECTS

Connect with renowned experts and organizations within the research and innovation ecosystem. Discover exciting opportunities for collaboration on joint projects, dedicated to industry-focused advancements or the creation of impactful programs in the research and innovation landscape. The GRRIP community comprises numerous experiences and past successes in European-funded projects, such as Horizon Europe. Participating in consortium building will serve as a significant advantage for GRRIP members.

4

COLLABORATION WITH OTHER COMMUNITIES

As a member of the GRRIP Community, you'll also have the opportunity to collaborate with other like-minded communities, including the RRING, ICoRSA and OPUS community and MARINA platforms:

rring.eu / icorsa.org / opusproject.eu.

Expanding your network and engaging with diverse stakeholders can amplify your impact on the marine and maritime sectors.

Join the GRRIP Community and be at the forefront of driving responsible research and innovation within the marine blue economy.

Together, we can shape a sustainable future for our oceans and beyond.
